Half of a Yellow Sun

Chimamanda Ngozi Adichie 2010-10-9

With her award-winning debut novel, Purple Hibiscus, Chimamanda Ngozi Adichie was heralded by the Washington Post Book World as the “21st century daughter of Chinua Achebe”. Now, in her masterly, haunting new novel, she creates a seminal moment in modern African history. Biafra’s impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo’s beautiful mistress, Olanna, a sociology teacher, is running away from her parents’ world of wealth and excess. Kainene, her urbane twin, is taking over their father’s business and Kainene’s English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie expertly evokes the promise, and intimately, the devastating disappointments that marked this time and experience, focused, ambitious and triumphantly realized. Half of a Yellow Sun is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.

Fifteen years later, they reunite in a newly democratic Nigeria, and reunite their passion—for each other and for their homeland.

so was the first mayor of Little Rock who I remember from my childhood. Most of my close friends’ moms worked outside the home as nurses, doctors, teachers, professors, and in business. And women were going into space and breaking records here on Earth. Ensuring the rights and opportunities of women and girls remains a big piece of the unfinished business of the twenty-first century. While there’s a lot of work to do, we know that throughout history and around the globe women have overcome the toughest resistance imaginable to win victories that have made progress possible for all of us. That is the achievement of each of the women in this book. So how did they do it? The answers are as unique as the women themselves. Civil rights activist Dorothy Height, LGBTQ trailblazer Edie Windsor, and swimmer Diana Nyad kept pushing forward, no matter what. Writers like Rachel Carson and Chimamanda Ngozi Adichie named something no one had dared talk about before. Historians Mary Beard used wit to open doors that were once closed, and Wangari Maathai, who sparked a movement to plant trees, understood the power of role modeling. Harriet Tubman and Malala Yousafzai looked fear in the face and persevered. Nearly every single one of these women were fiercely optimistic—they had faith that their actions could make a difference. And they were right. To us, they are all gutsy women—leaders with the courage to stand up to the status quo, ask hard questions, and get the job done. So in the moments when the long haul seems awfully long, we hope you will draw strength from these stories. We do. Because if history shows one thing, it’s that the world needs gutsy women.

In Nigeria, Deola encounters changes in her family and in the urban landscape of her home, and new acquaintances who offer unexpected possibilities. Deola’s urgent, incisive voice captivates and guides us through the intricate layers and vivid scenes of a life lived across continents. With Sef Atta’s characteristic boldness and vision, A Bit of Difference limns the complexities of our contemporary world. This is a novel not to be missed.

Conversations with Chimamanda Ngozi Adichie—Daria Tunca 2020-08-25 Nigerian author Chimamanda Ngozi Adichie (b. 1977) is undoubtedly one of the most widely acclaimed African writers of the twenty-first century. Best known for her insightful fiction, viral TED talks, and essays on feminism, she is also a notoriously outspoken intellectual. As she puts it in an interview with Lia Grainger, in her characteristically straightforward style: “I have things to say and I’ll tell them.” Conversations with Chimamanda Ngozi Adichie is the first collection of interviews with the writer. Covering fifteen years of conversations, the interviews start with the publication of Adichie’s first novel, Purple Hibiscus (2001), and end in late 2018, by which time Adichie had become one of the most prominent figures on the international literary scene. As both scholars and passionate readers of the author’s work are bound to find out, the opinions shared by Adichie in interviews over the years coalesce into a fascinating portrait that presents both abiding features and gradual transformations. Reflecting the political and emotional scope of Adichie’s work, the conversations contained in this volume cover a wide range of topics, including colonialism, race, immigration, and feminism. Collectively, these interviews testify both to the author’s ardent wish to strive for a more just and equal world, and to her deep interest in exploring our common humanity. As Adichie says in her 2009 interview with Joshua Jelly-Schapiro: “When people call me a novelist, I say, well, yes, I really think of myself as a storyteller.” This book invites Chimamanda Ngozi Adichie to tell her own literary story.

What Were We Thinking—Carlos Lozada 2020-10-06 The Washington Post’s Pulitzer Prize–winning book critic uses the books of the Trump era to argue that our response to this presidency reflects the same failures of imagination that made it possible. As a book critic for The Washington Post, Carlos Lozada has read some 150 volumes claiming to diagnose why Trump was elected and what his presidency reveals about our nation. Many of these, he’s found, are more defensive than incisive, more righteous than right. In What Were We Thinking, Lozada uses these books to tell the story of how we understood ourselves in the Trump era, using as his main characters the political ideas and debates at play in America today. He dissects works on the white working class like Hillbilly Elegy; manifestos from the anti-Trump movement like The Corrosion of Conservatism; and of course plenty of books about Trump himself. Lozada’s argument is provocative: that many of these books—whether written by liberals or conservatives, activists or academics, Trump’s true believers or his harshest critics—are vulnerable to the same blind spots, resentments, and failures that gave us his presidency. But Lozada also highlights the books that succeeded in illuminating how America is changing in the 21st century. What Were We Thinking is an intellectual history of the Trump era in real time, helping us transcend the battles of the moment and see ourselves for who we really are.
